Product Description

The floor model is a replica of the F-35A Lightning II. The JSF Joint Strike Fighter programme was created to develop a new fifth-generation, all-weather, multi-role fighter to replace existing US and NATO strike fighters. The aerospace team, led by Lockheed Martin, developed the single-engine, single-seat F-35 Lightning II. Due to its operational flexibility, advanced on-board technology and impressive project innovation, the F-35 Lightning II will be a reference aircraft in 21st century military aviation. Detailed 1/72nd scale model kit-taleri's high quality kit requires self-assembly. Self-assembly is guided by step-by-step or illustrated assembly instructions. The assembly instructions are of course included in the delivery. Based on the assembly instructions, the precisely fitting individual parts must be assembled. The parts can be painted according to your own ideas. Tools, glue and paint are not included in the scope of delivery of the plastic kit. These must be purchased as an option. Caution!
