## 300031114 - Model kit,1:700 JPN Musashi battleship WL

from **20,44 EUR**

Item no.: 369671  
shipping weight: 3.00 kg  
Manufacturer: TAMIYA

### Product Description

The stand model is a replica of the Japanese Musashi battleship, which was the second battleship of the Yamato class and the last to be built by the Japanese navy in 1938. Details such as the armour belt on the side have been accurately reproduced. In addition, the side of the boat hangar at the rear is a separate part to enhance the three-dimensional effect. The highlight are the weapons, which were considered the most powerful weapons in the world at the time. Accordingly, a triple 46 cm main turret is attached, which is modelled in detail with each barrel as a separate part up to the watertight base cloth. In addition, the 15.5 cm secondary armament and the 12.7 cm high-angle cannon convey the powerful attacking force of the battleship. The rangefinder and the direction finder also have a three-dimensional effect. The main turret, the secondary turret and the rangefinder can be rotated with a poly cap. The Tamiya stand model impresses with its quality, attention to detail and accuracy of fit.

Details- Scale: 1:700- Age recommendation: from 14 years Technical data- Length: 375 mm Contents- Model kit- Waterline- Instructions- Decals Information- The high-quality kit from Tamiya must be assembled by the customer.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions.- The assembly instructions are of course included in the scope of delivery.- The precisely fitting individual parts must be assembled on the basis of the assembly instructions.- The parts can be painted according to your own ideas.- Tools, glue and paint are not included with the plastic kit.
