COBI-2578 - 1051 PCS HC WWII /2578/ IS-2 3IN1

from **50,59 EUR**

Item no.: 374036
 shipping weight: 1.50 kg
 Manufacturer: COBI

Product Description

The powerful block model of the IS-2 heavy tank has been developed in 1:28 scale from over 1,000 elements! The finished structure reaches up to 35.5 cm in length and provides access to the service hatch, under which is a removable engine! Other features of the model include: movable cannon and turret, access to hatches for the crew and working chain traction. The set contains bricks with the markings of three countries! These are Poland, Czechoslovakia and the Soviet Union. It's up to you which colours you build this tank in! The model uses high-quality, durable prints. The set includes a sensational figure of a tanker in a standard armoured suit from this period and a plate with the name of the model. The IS-2 tank was developed in 1943 as a successor to earlier models of heavy tanks of the Red Army. Its crew consisted of 4 people. The main armament was a 122 mm gun that could penetrate the armour of the best German tanks such as the Tiger and Panther. The IS-2 played an important role in the Battle of Berlin, where it contributed to the final defeat of the Third Reich. It was one of the most powerful heavy tanks of the Second World War. Its combination of powerful armament, armour and manoeuvrability made it an extremely dangerous opponent on the battlefield. IS-2 heavy tanks were also used by the Allied armies of the Soviet Union. Therefore, Polish and Czechoslovakian decorations on this military equipment are not surprising. Thanks to the COBI building blocks, you can recreate this historic vehicle in your home!

Details- scale 1:28- age recommendation: from 9 years- number of parts: 1051 Special features- detachable engine- bricks with tank markings (Poland, Czechoslovakia, Soviet Union) Technical data- length: 35.5 cm / 13.98"- width: 12 cm / 4.72"- height: 12.5 cm / 4.92" Contents- Building kit- 1 tanker figure- Sign with the name of the set- Instructions Information- Made in the EU by a company with over 35 years of tradition- Meets the safety standards for children's products- Fully compatible with clamp building blocks from other brands- Only permanent prints have been used without the use of stickers- Clear and intuitive instructions based on drawings and symbols
