Product Description

The Opel REKORD C was a hit on the European car market in the 1960s and 1970s. The licensed OPEL model made from COBI building blocks on a scale of 1:35 is a treat for collectors and car enthusiasts. Thanks to specially designed elements that faithfully reflect the shapes of the bodywork and durable prints, the vehicles created by COBI are outstanding miniatures of classics! You can build the clamp-on model from 134 high-quality elements. The car is perfect for display in an adult car fan's collection. Thanks to its solid construction and movable wheels on special rubber tyres, the model is also perfect as a toy. The set includes a nameplate with the Opel brand logo.
