Product Description

Experience the precision of the skies: Airbus Helicopters EC135 Air-Glaciers model kit on a scale of 1:72. Immerse yourself in the fascinating world of aviation with our exquisite model kit of the Airbus Helicopters EC135 rescue helicopter in the authentic Air-Glaciers design. This masterful set allows you to create a detailed 1:72 scale model of this important Swiss rescue helicopter. Experience the pride and precision of the skies as you discover every aspect of this model with its 75 highly detailed parts. Whether you are a beginner or an experienced modeller, this kit offers you the opportunity to take your skills to the next level. Perfect for modelling enthusiasts, aviation lovers and collectors alike. Whether you want to create an impressive display, stage a realistic game or add a highlight to your collection, this model will fulfil all your expectations. What really sets this kit apart are the lovingly crafted details and unparalleled authenticity. The moving rotors add a dynamic touch to your model, while the decals supplied provide a historical connection. Thanks to the high-quality glue and brushes, you can start working immediately and express your creativity. Background information: The Airbus Helicopters EC135 rescue helicopter, known for its use by Air-Glaciers, one of the leading Swiss helicopter companies, has an eventful history in the rescue sector. This model not only recalls the technical splendour of the original, but also honours the dedication of the people behind these life-saving machines.
