Product Description

Go on a journey into history and build the legendary Apollo 11 lunar module "Eagle" in 1:48 scale. This impressive model kit consists of 75 parts and has a height of 141 mm, making it an impressive model for your collection. The age recommendation for this kit is 13+ years and is rated at Level 4, which means it is ideal for advanced modellers who have experience in gluing and painting. When Neil Armstrong uttered the historic words "Houston, this is Tranquility Base. The Eagle has landed," a new chapter was opened in the history of mankind. With this model kit, you can recreate this groundbreaking event and immortalise a piece of space history in your own four walls. Whether you are an enthusiastic modeller or a fan of space history - this kit will fascinate you.
