Product Description

The appearance of the Maserati MC20 on the automobile market was an eagerly awaited event! The open-top version of the MC20 was given the name Cielo, which means sky in Italian. The roof, made of a special composite material, disappears in just 12 seconds under a flap decorated with a large trident, the symbol of the Italian brand. The pursuit of aerodynamic perfection has resulted in incredible supercar-like performance! The MC20 Cielo accelerates to 100 km/h in less than 3 seconds and allows you to comfortably reach speeds of over 320 km/h. The MC20 CIELO clip-on model has been released under the original licence of the Italian sports car manufacturer Maserati. Such an amazing design is only possible on a scale of 1:12. Our car is 39 cm long and consists of 2,115 elements. A functional, foldable roof, doors that open upwards, swivelling wheels that can be turned via a functional steering system, an engine reproduced from clamping bricks and elements specially made for this model are just some of the advantages of this set. With the help of numerous high-quality prints and carefully designed elements, important details and the interior have been reproduced. The Klemmbaustein edition is characterised by its beautiful red body colour. You get a marvellous model that cannot be ignored! Now this modern super sports car can be yours! Thanks to clear and intuitive instructions, assembly is easy and not a problem even for less advanced builders. The brilliantly designed car is sure to delight fans of modern motoring. The sporty shape, sophisticated design and many functionalities make this model unmissable. Change the position of your supercar thanks to the folding roof and swivelling wheels, open the bonnet and show off the engine, lift up the doors! You'll never get bored with this model! Express your passion with COBI bricks!
