### Product Description

Get ready for an exciting pre-Christmas season with the 1:150 scale Ghost Ship advent calendar! This unique opportunity allows you to build a piece of a legendary ship day by day. With a length of 260 mm, this model offers an imposing appearance, ideal for fans of model building aged 10 years and older. This extraordinary creation will fascinate you, especially when it becomes a glowing ghost ship at nightfall. Experience the mystical aura of the Ghost Ship and look forward to the fascinating story behind this model. Difficulty level 2: This kit is ideal for beginners and young modelling fans aged 10 and over. Thanks to the simple easy-click system, visible results can be achieved quickly and the coloured components can be stably connected by simply plugging them together. The stickers supplied allow you to add a personal touch and guarantee fun modelling with great results. Whether as an introduction to model building or as an exciting daily surprise during Advent, this set offers joy and fulfilment for every fan of model building. Special features: The Ghost Ship model not only impresses with its detailed design, but also with its innovative night glow colour, which gives the model a ghostly glow in the dark. A real highlight that no collection should be without and an attractive gift for all maritime legend enthusiasts. Background information: The ghost ship, also known as the Ghost Ship, has fascinated people since time immemorial. Numerous tales and myths surround these mystical ships, which come to life in the dark. With this kit, you have the opportunity to bring a piece of this fascinating world into your home and discover and build a piece of this legend every day. Let yourself be inspired by this unique modelling adventure and create a work of art that will fascinate not only at Christmas time, but all year round. ATTENTION: Not suitable for children under 8 years of age. water-soluble colours included. Use under adult supervision. Read and follow the instructions with your child before use and have them ready for reference.
