## 500907670 - Model kit, 1:20 MB fire brigade with turntable ladder 100% RTR

**64,92 EUR**

Item no.: 370707  
shipping weight: 0.90 kg  
Manufacturer: Carson

### Product Description

Have you ever dreamed of being a fireman or firewoman? Now you can realise this dream - with the 1:20 MB fire engine with turntable ladder, which is 100% ready-to-run and takes you straight into the RC world. Thanks to the modern 2.4 GHz remote control, you can navigate this impressive fire engine through terrain with ease. The 360 degree rotation of the superstructure, which you can control via the transmitter, makes it easy for you to manoeuvre through obstacles. And the water spraying function can be controlled via the transmitter, so you can extinguish any fire that comes your way. But that's not all - this fire engine has 4WD with powered rear axles, so it can also drive on uneven terrain with ease. The engine and driving sound as well as the LED lighting make the driving experience even more realistic. Experience the excitement that only a fireman or firewoman can experience. Whether you buy it as a gift for an RC enthusiast or use it as a highlight for your own collection, this fire engine will not disappoint. With its realistic features and effortless operation, it is a must-have for anyone who loves fire engines or is enthusiastic about modelling. ATTENTION! Please keep these notes for any correspondence. Subject to colour and technical changes. Not suitable for children under the age of three. Choking hazard due to small parts that can be swallowed! Use under the direct supervision of adults. Adult assistance is required to remove the transport locks.

Details:- Scale: 1:20- Age recommendation: from 14 years  
Technical details:- 2.4 GHz remote control- 360 degree rotation of the superstructure via transmitter- Water spray function controllable via transmitter- 4WD with driven rear axles- Motor and driving sound- Incl. LED lighting  
Technical data:- Length 43.0 cm- Width 15.5 cm- Height 23.0 cm- Weight 1322 g- Driving time 30 min  
Contents:- Ready-to-drive model on a scale of 1:20- 2.4GHz remote control system- NiMH drive battery 4.8V/400mAh- Charger- Transmitter batteries- Filling bottle- Instructions
