shipping weight: 0.50 kg
Manufacturer: Carrera

Product Description

The Corvette Racing Chevrolet C8.R is a true champion. The car is considered one of the most powerful GT cars of all time. With the starting number 3, the Corvette dominated the first third of the race at Sebring in the GTLM class, leading the chasing pack for the first three hours. Triggered by an emergency braking and a pit stop, however, it had to concede defeat to the #25 BMW Team RLL BMW M8 GTE. In the end, however, it still finished in a very good second place. With the Corvette C8.R you can show your instinctive feeling in a race duel and thrill the spectators with your skills.

The Carrera EVOLUTION Chevrolet Corvette C8.R No.3 slot car impresses with its front and rear lights and its true-to-the-original finish. The Corvette on a scale of 1:32 offers you a unique immersion thanks to the original Chevrolet licence.

Warning: not suitable for children under 36 months!
