Product Description

The stand model is a replica of the Chinook HC.2 CH-47F. The Boeing CH-47 Chinook is one of the most famous heavy-lift helicopters in the history of military aviation. It is characterised by a tandem rotor configuration with two engines, one above the cabin and one in the tail section. It was developed specifically to fulfil the transport needs of the US Army and to replace the obsolete H-21. The CH-47 Chinook was produced in several versions and adopted by many countries around the world. The British Royal Air Force has the largest Chinook fleet outside the USA.
