from **465,96 EUR**

Item no.: 370988
shipping weight: 3.00 kg
Manufacturer: TAMIYA

Product Description

With the facelift of the MAN TGX 26.540 in the Euro 5 version 2013, TAMIYA is expanding its RC truck series with another German 3-axle tractor unit. The new radiator grille with the large MAN logo is striking. The 526 mm long and approximately 3 kg heavy kit model of the 2013 MAN truck, which was named Truck of the Year in 2008, can be used to put together impressive combinations. The proven and robust Tamiya truck technology can be found under the cab, which can be tilted forwards. A powerful electric motor transmits its power to the two rear axles via a shiftable 3-speed gearbox. A detailed aluminium ladder frame gives the model the necessary stability. Thanks to its high dead weight and a fifth-wheel plate, the MAN TGX 26.540 can be coupled with numerous TAMIYA and CARSON-MODEL SPORT trailers. Almost all sound and light functions of the prototype can be simulated with the optionally available multifunctional unit. The model is supplied pre-painted in the colour TAMIYA TS-54 Light Blue Metallic. Required accessories: 6-channel remote control (recommended Carson Reflex Wheel Stick), 1x steering servo, 1x switching servo, rechargeable battery, charger, batteries for transmitter, possibly paint for additional detailed paintwork. Warning: You should read and understand all instructions before starting assembly. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads.

Details:- Scale: 1:14- Age recommendation: from 14 years Technical details:- True-to-life ABS body replica of the MAN TGX 26.540 6x4 XLX- ABS parts (cab, F, H, K, M and CC mouldings) are already pre-painted in TS-54 Light Blue Metallic- prototypical interior with seats and dashboard- TAMIYA 3-axle chassis- metal chassis frame with leaf springs and driven double rear axle- 3-speed manual gearbox can be controlled via optional 4-channel remote control- leaf springs on the axles and rear shock absorbers with coil springs- incl. 540 electric motor- Recommended accessories: MFC-03 multifunctional unit (300056523) for the driving, light and sound functions Technical data:- Length 526mm- Width 193mm- Height 301mm Contents:- Kit model in 1:14- Vehicle- Decoration- Pre-painted ABS plastic body with aero package- Aluminium ladder frame- 2 driven rear axles- 3-speed manual gearbox- Chrome-plated rims- 540 electric motor- Instructions
