300056361 - RC Car, 1:14 RC MB Arocs 3348 Red/Silver Tipper

from **629,29 EUR**

Item no.: 370991
shipping weight: 3.00 kg
Manufacturer: TAMIYA

Product Description

Ready for the construction site? TAMIYA presents the first dumper truck in the Mercedes-Benz Arocs 3348 version! The skip consists of a sturdy ABS part and has a movable and automatically unlocking tailgate. The maximum payload is 10 kg and the body can be tilted by radio using the optionally available ACU-01 spindle drive unit. The unmistakable design of the new Arocs is as unusual as the truck itself. For example, a radiator grille in the so-called excavator tooth look, which was specially developed for construction vehicles, conveys the message: "Bite through and grab". Special protective grilles for the lighting system are attached to the bumper to match the robust appearance. The 576 mm long and approximately 3.5 kg heavy kit model can be used to assemble impressive combinations. The proven and robust TAMIYA truck technology can be found under the cab, which can be tilted forwards. A new Mighty-Tuned 35T electric motor transmits its power to the two rear axles via a switchable 3-speed gearbox. A detailed aluminium ladder frame gives the model the necessary stability and flexibility. A special additional frame has been installed for the body, which makes the model particularly stable. A towing jaw (e.g. Carson) can be attached to the rear part of the frame. Carson 500907182) can be attached to the rear part of the frame and used to pull a trailer. The optional multifunctional unit can be used to simulate almost all the sound and light functions of the prototype in a deceptively realistic way. **WARNING!** The instructions should be read and understood in full together with an adult. Keep away from small children. Children must not put any parts or packaging material in their mouths. The model may have some sharp corners. Pay attention to this when handling. Read the instructions supplied with the RC unit and keep them for future reference. If you encounter difficulties during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads.

Details- Scale: 1:14- Age recommendation: from 14 years Product details- Pre-painted body parts in Italian Red (TS-8) Cab, H, K and M parts- Pre-painted body in aluminium colour (TS-17) Tipper body and CC parts- True-to-the-original ABS body replica of the Arocs 3348 including handrails, steps, side mirrors and much more- One-piece load tray in max. load capacity - One-piece load tray in aluminium colour (TS-17) One-piece load tray for max. 10 kg payload- TAMIYA 3-axle chassis with reinforced frame- Tipping spindle unit available separately at 300056545- Includes TR mighty-tuned engine for perfect power delivery to the two driven rear axles- New rear tyres, bumper and mudguards- 3-speed manual gearbox can be controlled via optional 4-channel remote control- leaf springs on the axles and rear shock absorbers with coil springs Technical data- length 576 mm- width 190 mm- height 267 mm Contents- Mercedes-Benz Arocs 3363 Classic Space Kipper Modellbausatz- vorlackierte ABS Kunststoff-Karosserie- Alu Leiterrahmen- 2 angetriebene Hinterachsen- 3-Gang Schaltgetriebe- Verchromte Felgen- Anleitung- 540er Elektromotor Empfohlenes Zubehör- MFC-03 Multifunktionseinheit (300056523) für die Fahr-, light and sound functions- ACU-01 spindle drive unit (300056545) for the tilt function Required accessories- Min. 4-channel remote control - recommended Carson Reflex Stick 500501006 (6-channel), 500501003 (14-channel) or 500501004 (14-channel LCD display)- 7.2V NiMH battery pack, charger- TAMIYA TS paint for painting- Steering servo + servo for manual gearbox- Speed controller or TAMIYA multifunction unit MFC-03 300056523 for the driving, light and sound functions- TAMIYA ACU-01 spindle drive unit (300056545) for driving the body.
