Item no.: 369260
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

The West German manufacturer NSU was very popular in 1958 and 1973, and the TT Prinz was one of the best-known cars at the time. With this kit, TAMIYA presents the racing version with the sponsor Jägermeister. The kit is supplied with the M-05 chassis with front-wheel drive. The tuning motor and an electronic speed controller are included. Required accessories: 2-channel remote control with steering servo, battery pack, polycarbonate paint for the body, charger for the drive battery, transmitter batteries. WARNINGS: The instructions should be read and understood in full by an adult. Keep away from small children. Children must not put any parts or packaging material in their mouths. The model may have some sharp corners. Pay attention to this when handling. Read the instructions supplied with the RC unit and keep them for future reference.
