from **47,34 EUR**

Item no.: 369620
shipping weight: 1.00 kg
Manufacturer: ITALERI

Product Description

The stationary model is a replica of the German military motorbike with sidecar. At the special request of the German army, BMW and Zundapp were commissioned in 1938 to start a joint development project that could guarantee the highest number of common components to optimise maintenance work and spare parts logistics. The prototypes were released in 1940 and production began in early 1941. The special feature was that the sidecar wheel was driven by an axle connected to the rear wheel of the motorbike. These were equipped with a limited slip differential and selectable gear ratios to optimise performance both on and off the road

Details- Scale: 1:9- Age recommendation: from 14 years Technical data- Length 267 mm Contents- Kit- Instructions Information- The high-quality kit from Italeri must be assembled by the customer.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the scope of delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas.- Tools, glue and paint are not included with the plastic kit.
