### Product Description

The stand model is a replica of the Lamborghini Countach 25th Anniv. The final version of the glorious Countach, which is dedicated to Lamborghini's 25th anniversary, features numerous improvements. In fact, around 3,000 of the 8,000 parts that make up the car have been changed. Many of the aesthetic innovations come from the Countach Evoluzione prototype from 1986, the world's first super sports car made of carbon fibre. The air box and air intakes were redesigned and enlarged and assembled from miniskirts, and the geometry of the suspension was modified. The improved aerodynamics enabled a top speed of 300 km/h. This was the last version of the Countach, which remained in production until 1990, when it was replaced by the Diablo.
