Product Description

The stand model is a replica of the German Pak 40 anti-tank gun. The 75 mm Pak 40 anti-tank gun was put into service at the beginning of 1941 and became the standard anti-tank gun of the German army. Although less powerful than the better-known "88", it was used on all fronts with excellent results. Lightweight and easy to handle, it weighed only 1500 kg and could penetrate a 70 mm plate from a distance of 2000 metres. Slightly modified, it was also used on tank destroyers such as the Marder, the Stug III and the Hetzer.
