from **15,58 EUR**

Item no.: 370077
shipping weight: 0.50 kg
Manufacturer: ITALERI

Product Description

The stationary model is a replica of the M6 Dodge Anti Tank. The Gun Motor Carriage M6 was developed on the famous 4x4 Dodge WC52 frame, which occupies 37 mm on the rear deck. light anti-tank gun. Thanks to its 6-cylinder Dodge T-214 engine, the M6 could reach a speed of 90 km/h on the road. The US Army used GMC M6 from the end of 1942 until the end of the Second World War in all theatres of operations such as the Mediterranean, the European front and the Pacific. The GMC M6 was established and further developed as an anti-tank vehicle. However, since the first clashes in Tunisia, its light weapon was often ineffective against the latest German armour protection. Its main role was partially changed and the M6 was used as an infantry support vehicle.

Details- Scale: 1:35- Age recommendation: from 14 years Technical data- Length: 2129 mm Contents- Kit- Decoration- Instructions Information- The high-quality kit from Italeri must be assembled by the customer. - The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the scope of delivery. - Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas. - Tools, glue and paint are not included with the plastic kit.
