Product Description

Darwin's Journey is a worker placement Eurogame in which players re-enact Charles Darwin's adventurous journey in the Galapagos Islands, which contributed to the development of his world-famous theory of evolution.

The game's innovative worker progression system means that each worker must study the disciplines that are prerequisites for various actions in the game. For example, researching, corresponding, collecting and shipping species discovered on the island. The game goes for five rounds, with each player completing several short- and long-term objectives in an attempt to score victory points in a varied way.

When all you can see on the horizon for many long days is the line separating the sea from the sky, the glimpse of a distant coastline looming ahead will make you shudder as you realise the adventure is about to begin.

Caution! Not suitable for children under 36 months. Legal minimum age: 14

- Number of players: 1-4
- Game duration: 120 minutes
- Age: from 14 years
