Clear and intuitive instructions make building a sports car quick and efficient! Opel is a German manufacturer of passenger cars, sports cars and vans that has left a lasting impression on the history of the automotive industry with many successful models. The breakthrough car for Opel, which exceeded the one million units produced mark in the mid-size segment for the first time, was the REKORD model. The most famous Opel Rekord "Black Widow" was created in secret! As part of the General Motors Group, Opel was excluded from motor racing. Nevertheless, the factory workers prepared a sports version of the Rekord with a 180 hp engine. Thanks to the yellow applications on the black paintwork, it was nicknamed the "Racing Taxi" and "Black Widow". The car became a sensation and took part in spectacular races. Due to bans imposed by GM management, the car was taken to Austria, where all trace of it was lost. Now the automotive legend is back thanks to COBI components!
