from **41,68 EUR**

Item no.: 370457
shipping weight: 1.00 kg
Manufacturer: ITALERI

Product Description

The floor model is a replica of the VOLVO F-16 Globetrotter. About ten years after the release of the F-12 and because of its success, Volvo launched the new F-16 in 1988 with its state-of-the-art features.

Equipped with a heavy-duty chassis, the truck offers extensive transport capacity, low fuel consumption and high travel comfort combined with a reliable and powerful engine that has made it a leader in its category. The characteristics of its 6-cylinder turbo-compressor with 16000 cc displacement are an output of 465 hp at 1200 rpm, making the F-16 well equipped to handle heavy-duty transport over long distances.

Of the various versions offered by Volvo, our model represents the 2-axle tractor version with the high cab (GLOBETROTTER).

- Detailed model kit in scale 1:24, the standing model has dimensions: Length: 24.0 cm
- The high quality kit from Italeri has to be assembled by yourself
- The self-assembly is accompanied by step-by-step or illustrated assembly instructions. The assembly instructions are of course included in the delivery
