from **26,17 EUR**

Item no.: 369328
shipping weight: 0.50 kg
Manufacturer: ITALERI

Product Description

The stand model is a replica of an F104G cockpit. The Lockheed F-104 Starfighter is one of the most renowned fighter aircraft in aviation history and also the aircraft with the longest service life. Its history began in the late 1950s and ended with several air forces in the mid-2000s. Its unique airframe with a slim fuselage and a very low wing area made this aircraft ideal for use as an interceptor. Due to the thrust of its General Electric J79-GE-11A afterburning turbojet engine, it could exceed Mach 2.2 with a world-class rate of climb. With this scale model kit, modellers can recreate the famous "Starfighter" cockpit with the typical interior layout of the fighter aircraft of the 50s and 60s, which was the "home" of many former NATO pilots. The fine detail of the dashboard, typical of this period, is complemented by the high-precision reproduction of the Martin Baker ejection seat.

Details- Scale: 1:12- Age recommendation: from 14 years Technical data- Length: 147 mm- Width: 90 mm Contents- Kit- Decoration- Instructions Information- The high-quality kit from Italeri must be assembled by the customer.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the scope of delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas.- Tools, glue and paint are not included with the plastic kit.
