from **19,78 EUR**

Item no.: 369550
shipping weight: 2.50 kg
Manufacturer: ITALERI

Product Description

The stand model is a replica of the US George H.W. Bush CVN77. The U.S.S. George H. W. Bush (CVN-77) is the tenth and last "super carrier" of the Nimitz class. Commissioned in 2009, it is the most up-to-date in terms of technology and weapon systems in its class. As one of the largest warships in the world, it is powered by two Westinghouse nuclear reactors thanks to its displacement of 100,000 tonnes, allowing it to reach 30 knots and have an almost unlimited range despite its impressive size. More than 80 aeroplanes and helicopters are carried on board, making it possible to improve the military effectiveness of the warship. The "Busch" is also used to develop and test advanced weapons systems. On the deck of the CVN-77, the first tests were recently conducted with unmanned drones such as those developed and designed by the Northrop Grumman X-47B for carrier-based operations.

Details- Scale: 1:720- Age recommendation: from 14 years
Technical data- Length: 447 mm
Contents- Kit- Decoration- Instructions
