from **23,76 EUR**

Item no.: 363866
shipping weight: 0.10 kg
Manufacturer: Carrera

Product Description

The link between Carrera track and WIRELESS+ hand controllerThe WIRELESS+ receiver is required so that the WIRELESS+ controllers are connected to the vehicle. One WIRELESS+ receiver is sufficient for all vehicles. This means that up to six vehicles can be connected. The receiver can be used for DIGITAL 132 or DIGITAL 124 tracks. Simply press the SET button on the receiver, then press the binding button on the top of the controller and the WIRELESS+ controller is connected to the track. Proceed in the same way for the other controllers. With the WIRELESS+ controllers in conjunction with the WIRELESS+ receiver, you can experience exciting races in the DTM, Formula 1, GT3 or another exciting racing series on your own Carrera track.
