from **19,59 EUR**

Item no.: 364859
shipping weight: 0.50 kg
Manufacturer: Carrera

Product Description

Breathtaking drifts are now possible You can extend your 1:24 scale Carrera racetrack with outer edge strips. Of course, these edge strips always look good. However, they are particularly useful if you want to drive the 1:24 scale slot cars on your Carrera DIGITAL 124 racetrack. This is no problem on the straights, but drifts in the bends used to be very difficult as the cars often slid off the track. Thanks to the outer edge strips, this no longer happens so easily. The set contains six add-on parts for 30° bends, each with two end pieces. When assembled, you have the outer edge strip for a 180° bend. The edge strips are suitable for the Carrera DIGITAL 124, Carrera DIGITAL 132 and Carrera EVOLUTION racing tracks on a scale of 1:24.

Details- Scale 1:24- Age recommendation: from 8 yearsCompatible with- DIGITAL 124 - DIGITAL 132 - EVOLUTIONContents- 6x outer edge strips for curve 1/30°- 2x end pieces
