from **19,16 EUR**

Item no.: 364861
shipping weight: 0.20 kg
Manufacturer: Carrera

Product Description

The ideal frame for steep bendsA steep bend is a particularly tricky undertaking for the slot car. Here, the driver must demonstrate a knack for the right speed and the right timing so that you don't fall off the track due to the force. The red and white markings on the inside edge of the track indicate that you can recognise this section from a distance. So you know what you have to prepare for: as soon as you see the inner edge strips with their eye-catching colours, it's time to step on the gas to master the steep bend. The set contains six inner edge strips for the 1/30° elements of a banked curve and two matching end pieces. The track parts are compatible with racing tracks on a scale of 1:24 and are therefore perfect for Carrera DIGITAL 124, Carrera DIGITAL 132 and Carrera EVOLUTION racing tracks.

Details- Scale 1:24- Age recommendation: from 8 yearsCompatible with- DIGITAL 124 - DIGITAL 132 - EVOLUTIONContents- 6x inner strips- 2x end piece
