## 20020579 - CARRERA DIGITAL 124 Steep curves 4/15o (12)

from **92,09 EUR**

Item no.: 364870  
shipping weight: 0.10 kg  
Manufacturer: Carrera

### Product Description

Take the bend at speed! Integrate a banked curve into your racetrack and bring some action to your next race. Compared to "normal" bends, a banked curve has the advantage that you can drive through it at a higher speed without flying off the track. This means you don't have to brake as hard and can carry the momentum over to the next section of the track. The set contains 12 track sections, each with an angle of 15°. Taken together, this results in a 180° curve, which is also suitable for the 8-lane expansion of your Carrera racetrack. The track scale is 1:24, so the Carrera DIGITAL 124, Carrera DIGITAL 132 and Carrera EVOLUTION tracks can be extended with this set.

Details- Scale 1:24- Age recommendation: from 8 years- For 8-lane construction  
Technical details- DIGITAL 124 - DIGITAL 132 - EVOLUTION  
Technical data- 1 piece = 15 degrees  
- 12 pieces = 180 degrees  
Contents- 12 pieces
