Just One Bundle, basic game + expansion

from **26,15 EUR**

Item no.: 362354
shipping weight: 0.90 kg
Manufacturer: Repos Production

Product Description

Just One Bundle including the New Words expansion. Just One is a co-operative party game in which everyone plays together against the game. The aim is to guess as many of the 13 secret words as possible together. In each round, one of the active players tries to guess a secret word. The other players help by secretly writing one clue each on their boards, without colluding. Creativity is required here, as the same clue may not be written down by two players at the same time. If there are two or more identical clues, they are invalid and the active player does not get to see them. At the end of the game, all the secret words guessed are added up and the result of the game is determined. Award-winning Just One is Game of the Year 2019. "Just One is particularly ingenious due to its simplicity," said the jury, explaining their choice of award winner. "It stands out because it develops a tremendous pull: Anyone who plays it in public will quickly attract onlookers who want to play right away." Even at the nomination stage, the jury called Just One a "flash of communicative playfulness that strikes a chord in every round and leaves a lasting impression". In 2019, Just One won the "Beeple Award" from the Brettspiel blogger network. "The co-operative creative word fun often lasts for many more rounds, because very quickly it is no longer the score that matters, but the fun that everyone at the table has." CAUTION! Not suitable for children under 3 years. Choking hazard due to small parts that can be swallowed.

- Number: for 3-7 players- Age: from 8 years- Duration: from 20 minutes
