COBI-5754 - 1383 PCS HC WWII /5754/ DORNIER DO 17

from 71,22 EUR

Item no.: 374054
shipping weight: 2.40 kg
Manufacturer: COBI

Product Description

The model of the famous Dornier DO 17 bomber was carefully developed from 1,383 building blocks in the sensational large scale of 1:32. The wingspan of this huge model is 57.5 cm! The set uses only permanent prints. You will look in vain for stickers here! In order to better reproduce the complex shape of the cockpit and the nose of the aircraft, we have developed completely new building blocks using the two-colour spraying technique! The cockpit, which also features printed equipment, accommodates two pilot figures. The set contains movable elements such as propellers, ailerons and closable bomb hatches. There are additional decals under the wings as well as removable bombs and wheels. The underside of the aeroplane has been built from bricks in a completely new shade of blue. The two pilot figures included in the set wear carefully reproduced uniforms with imprints on their backs. The set includes a sign with the name of the set. This aeroplane is a must-have for all fans of history, aviation, militaria and military technology. Complete your collection and build history brick by brick! The Dornier Do 17Z-2 was a German bomber used in the Second World War. It gained a reputation for being a fast and manoeuvrable aircraft. It was designed and manufactured by Dornier Flugzeugwerke in the 1930s. The Do 17Z-2 version was one of the last variants of this model and was already in service at the beginning of the war. The crew of the DO 17 consisted of 4 to 6 members, depending on the configuration. Its main task was to transport bombs to strategic targets, and its armament consisted of machine guns and cannons. 17 aircraft were used by the Luftwaffe during the European campaign and took part in the bombing of cities and industrial plants. Production of the Do 17Z-2 ended in 1940 and the aircraft were gradually withdrawn from service.

Details- Scale: 1:32- Age group: 10 years and over Technical details- 1383 high quality elements- made in the EU by a company with over 20 years of tradition- meet the safety standards for children's products- fully compatible with other brands of clamp building blocks- blocks with prints do not deform or fade during play or under the influence of temperature- clear and intuitive instructions based on drawings and symbols- 100% prints, no stickers- prints on the underside of the wings- two pilot figures with print on the back Technical data- Size: 600x75x320- Length of the model: 49 cm / 19.3?- Wingspan: 57.5 cm / 22.6?- Height: 13 cm 5.1? Contents- Number of parts: 1383- Minifigures: 2
