Product Description

The licensed Boeing B-17 Flying Fortress is the legendary American heavy bomber that you can build with COBI bricks! The historic, high-performance aircraft named "Mary Alice" has been carefully designed in 1:48 scale from over 1,200 elements! The set uses only permanent prints. You won't find any stickers here! The aeroplane is 49 cm long and has a wingspan of 66 cm! Once built, it will become one of the largest exhibits in your building block collection. The two pilot figures included in the set feature very interesting prints. The set features movable elements such as wheels, folding landing gear, propeller, ailerons and closable bomb hatches. The kit includes a plate with the model designation. Assembly is easy thanks to the intuitive instructions with clear symbols. The aeroplane is a must for all lovers of history, aviation, military and military technology. The large number of elements ensures many hours of exciting building. The set was manufactured entirely in Poland within the European Union. The B-17 Flying Fortress is a legendary American heavy bomber that was used in the Second World War. It was one of the most famous aircraft of this conflict. It was designed as a long-range bomber aircraft capable of carrying large quantities of bombs over considerable distances. Its speciality was the use of four engines, which gave it great power and the ability to operate at high altitudes. The Flying Fortress was extremely durable and well armoured, which made it more resistant to enemy attacks. It was also known for its ability to continue flying despite significant damage. This aircraft played a key role in bombing raids over Europe and the Pacific. B-17s carried out numerous strategic bombing raids, attacking enemy industrial, military and infrastructure targets. Thanks to its iconic silhouette and the courage of the B-17 crews, the Flying Fortress became a symbol of the American war effort during World War II and is still present in the memory and history of aviation.

Details- scale: 1:48- age group: from 10 years
Technical Details- 1.232 high-quality elements- manufactured in the EU by a company with over 20 years of tradition- meets the safety standards for children's products- fully compatible with other brands of clamp blocks- blocks with prints do not deform or fade during play or under the influence of temperature- clear and intuitive instructions based on drawings and symbols- 100% prints, no stickers- 2 pilot figures- nameplate
Technical specifications- size: 600x75x320- Length of the model: 49 cm / 19.29?- Wingspan: 66 cm / 25.98?- Height: 13 cm / 5.12?
Contents- Number of parts: 1210- Minifigures: 2
