Product Description

Live report from the Carrera race track at homeReporters and guests have the best view of the track and the exciting duels between the racing cars from the press tower. Of course, this mighty building should not be missing on your Carrera track. Many a story about an exciting race has been written in the press tower. The press tower adds a great decorative element to your racetrack and makes it even livelier. The press tower is a plastic kit that is quick and easy to assemble. The tower consists of a total of three storeys. The Carrera decorative buildings offer many construction and combination options and create new scope for lively race tracks time and time again.
