from **36,72 EUR**

Item no.: 374057
 shipping weight: 0.80 kg
 Manufacturer: COBI

Product Description

MiG-29 (NATO code: Fulcrum) is a Soviet, now Russian, modern fighter aircraft that has been in production since 1983. Aircraft of this type have been in service with the Polish Air Force since 1989. In 2023, Poland transferred part of its MiG-29 fleet to the fighting Ukraine. The 2-in-1 block model contains two sets of markings for Poland and Ukraine, so that the builder of the set can freely choose the nation. The aircraft from the Bundeswehr collection was developed on a scale of 1:48 and consists of 550 elements. The size matches the rest of the collection of modern fighters! The model features completely new special elements such as vertical stabilisers and a nose with "pitot tube". The set includes two nameplates (UA/PL) and a presentation stand. The undercarriage of the aircraft can be easily removed to display it in flight on a brick base with a transparent pin. Our MiG-29 is 35.5 cm long and has a wingspan of 23 cm. Assembly is easy thanks to the intuitive instructions with clear symbols. This model is a must-have for all fans of aviation, the military and military technology. The set was manufactured entirely in Poland within the European Union. This is another aircraft model in Polish colours, released as part of the intensively developed collection of the armed forces! MiG-29 aircraft officially serve in the Polish Air Force and Ukraine!
