from **40,92 EUR**

Item no.: 374056
shipping weight: 0.90 kg
Manufacturer: COBI

Product Description

The F/A-18E Super Hornet is a unique model of the film aircraft, released under the original licence of TOP GUN: Maverick™. Legendary film pilot and US Navy instructor Pete "Maverick" Mitchell is training a new generation of pilots on just such aircraft. Build your own 1:48 scale Super Hornet, faithfully modelled using 560 COBI building blocks. The latest updated edition includes specially designed thin vertical fins and structural improvements. Now the model looks even better and is even harder to resist! In the F/A-18E Super Hornet set you will find high-quality prints that faithfully reproduce the original design of the film machine. No stickers! Under the wings of the aircraft is a large armoury. We can place a special brick pilot in the cabin. The set also includes a block stand and a sign with the name of the aircraft and the film's logo. This exclusive licence set is perfect for fans of action films, aviation and model building! Feel the adventure and build it! Boeing F/A-18E Super Hornet - American supersonic multi-role carrier aircraft of the US Navy, which entered service in the late 1990s as an enlarged and modernised version of the F/A-18C/D Hornet. The Super Hornet replaced the F-14 Tomcat fighter aircraft used by the US Navy until recently, as well as other specialised aircraft. It is one of the US Navy's most modern aircraft.
