20023633 - CARRERA DIGITAL 124 DTM Full Speed

from **501,88 EUR**

Item no.: 364536
shipping weight: 0.10 kg
Manufacturer: Carrera

Product Description

Touring car photo finish on a scale of 1:24 In the Carrera DIGITAL 124 "Full Speed" set, you can go full throttle with your touring cars on a scale of 1:24! The Audi R8 LMS GT3 evo II "Team Abt Sportsline, No.7" is a dream car for anyone interested in motorsport. Former GT3 champion Ricardo Feller is at the wheel of the Allgäu-based racing team in the DTM. In his first DTM season, he immediately achieved a racing success in Imola. His rival on the racetrack is the red and yellow BMW M4 GT3 "Schubert Motorsport, No.31", the car driven by South African Sheldon van der Linde, who won the overall DTM title with this car in the 2022 season. 9.3 metres of touring car action The true-to-original racing cars on a scale of 1:24 look just like their role models from the current racing series and are not only a real eye-catcher on the 9.3 metre long Carrera racetrack, but also in your display case at home. The racetrack set is also equipped with WIRELESS+ hand controllers for maximum freedom of movement on the racetrack. The speed and braking behaviour of the vehicles can be individually programmed for the most authentic driving experience possible.

Details- Scale 1:24- Number of players: up to 4 players- Age recommendation: from 10 years- Playing time: 1-10 min. Technical details- Full speed- Expandable- Rechargeable battery - Individual programme- With lights- Drift- Wireless- Lane change overtaking- DIGITAL 124 track Technical data- Length: 309 mm- Track length: 9,300 mm- Width: 255 mm Contents- Full speed race track- Operating instructions
