from **36,72 EUR**

Item no.: 374062
shipping weight: 0.90 kg
Manufacturer: COBI

Product Description

With 642 high-quality COBI building blocks, you can build a versatile EUROFIGHTER® F2000 TYPHOON fighter in the colours of the Italian Air Force. The set has been carefully designed in 1:48 scale and complements the Armed Forces collection. The model features a hinged cabin, movable ailerons and wheels. The undercarriage can be easily removed at any time to present the aircraft even more beautifully on the presentation stand included in the set. The type plate is included in the scope of delivery. Thanks to the intuitive instructions, assembly is simple and will not cause any problems even for less advanced builders. The blocks have high-quality imprints that will not wear off even with intensive use. The set will fulfil the expectations of aviation, military and block enthusiasts. The Eurofighter® F2000 Typhoon will look great in your army collection, no matter how old you are! The Eurofighter aircraft is a multi-role jet fighter developed by the Eurofighter GmbH consortium consisting of the United Kingdom, Germany, Italy and Spain. It entered service in 2003 and is deployed in several countries around the world. The Eurofighter F2000 Typhoon reaches supersonic speeds and is highly manoeuvrable. This single-seat aircraft is equipped with advanced radar and electronic systems and has the ability to detect, track and attack air and ground targets using missile weapons and bombs carried on board. The Eurofighter has a maximum speed of around 2,495 km/h and an operational range of approximately 2,900 km. The Eurofighter F2000 Typhoon is frequently used for defence tasks, airspace surveillance, engagement of air and ground targets and to support ground force operations. It is considered one of the most modern fighter aircraft in the world and is a key element of European air defence. Italy has purchased 96 EUROFIGHTER® F2000 TYPHOON fighters, which were delivered between 2004 and 2020. Together with twenty F-35 fighters, they form the backbone of the Italian Air Force!

Details- Scale: 1:48- Age group: 8+ Technical Details- 642 high quality elements- made in the EU by a company with over 35 years of tradition- meet the safety standards for children's products- fully compatible with clamp blocks of other brands- blocks with imprints do not deform and do not fade during play or under the influence of temperature- clear and intuitive instructions based on drawings and symbols- 100% prints, no stickers- block display stand- sign with the name of the set Technical specifications- Size: 450x60x280- Length of the model: 34.5 cm / 13.6?- Wing span: 24 cm / 9.4?- Height: 11.8 cm / 4.6? Contents- Number of parts: 642
