from **34,76 EUR**

Item no.: 374064
shipping weight: 0.80 kg
Manufacturer: COBI

Product Description

The MiG-29 (NATO code: Fulcrum) is a Soviet, now Russian, modern front-line fighter aircraft that has been in production since 1983. This type of aircraft has been in service in East Germany since 1988. After German reunification, the MiG-29 fleet was maintained until 2002, when it was sold to Poland. The aircraft from the Bundeswehr collection was developed on a scale of 1:48 and consists of 545 elements. The size matches the rest of the block collection of modern fighters! The model features completely new special elements such as vertical stabilisers and a nose with a "pitot tube". The set includes a plaque with the name of the model and a display stand. The undercarriage of the aircraft can be easily removed to display it in flight on a brick base with a transparent pin. Our Brick MiG-29 is 35.5 cm long and has a wingspan of 23 cm. Assembly is easy thanks to the intuitive instructions with clear symbols. This model is a must-have for all fans of aviation, the military and military technology. The set was manufactured entirely in Poland within the European Union. This is another model of the legendary aircraft released as part of the intensively developed Armed Forces collection!
