Model kit, Antonov An-225 "Mrija", 227 parts, 13 years and up

from **75,10 EUR**

shipping weight: 1.20 kg Manufacturer: Revell

Product Description

The Revell model kit of the Antonov AN-225 Mrija in 1:144 scale is a real highlight for all fans of the largest aircraft in the world. With a length of 587 mm and a wingspan of 612 mm, the model is impressively large and detailed. The kit contains 227 parts which, when assembled, create an authentic replica of the unique aircraft.

The kit offers various build options, such as the choice between a cockpit replica, detailed cargo hold walls, 2 overhead cranes and ladders, a separate nose segment, a detailed nose ramp and the landing gear in normal or lowered position. The landing gear wells, the 28 landing gear wheels and the detailed engines are also impressive and make the model look realistic.

The decals, which are included in the kit, make it possible to achieve an authentic representation of the following versions: Antonov An-225, markings 08/2009 - 08/2016 and Antonov An-225, markings 09/2016 present.

The kit is suitable for ages 13 and up and the illustrated, multilingual assembly instructions make it easy to assemble the model. With the Revell model kit of the Antonov AN-225 Mrija in scale 1:144 you can create an impressive and detailed model yourself and experience the world of the largest aircraft in the world.
