from **29,91 EUR**

Item no.: 364883
shipping weight: 0.40 kg
Manufacturer: Carrera

Product Description

12 inner edge strips for steep bends 4/15° and 2 end pieces in 1:24 scale. A steep bend is a particularly tricky undertaking for the slot car. Here, the driver must demonstrate a knack for the right speed and the right timing so that you don't fall off the track due to the force. The red and white markings on the inside edge of the track indicate that you can recognise this section from a distance. So you know what you need to prepare for: as soon as you see the inner edge stripes with their striking colours, you need to step on the gas to master the steep bend.

Details- Scale: 1:24- Age recommendation: from 8 years Technical details- Suitable for Digital 124- Suitable for Digital 132- Suitable for Evolution Contents- 12 inner edge strips for steep curve 4/15° - 2 end pieces
