Product Description

The most famous Japanese fighter aircraft of the Second World War. The Mitsubishi A6M2, commonly called "Zero", was designed in 1940. It became famous for its exceptional manoeuvrability and great performance. It was an extremely formidable weapon of the Imperial Japanese Navy. The Zero was armed with two 7.7 mm Type 97 machine guns and two 20 mm Type 99 machine guns. These aircraft were involved in such important events as the attack on Pearl Harbor and the Battle of Midway. Build a historic Japanese fighter from the Second World War with 170 COBI building blocks! The model features high-quality prints and a removable chassis. The aircraft is 19 cm long and has a wingspan of 26 cm. It is a perfect addition to our growing historical collection! The Mitsubishi A6M2 "Zero" is an easy to build model, perfect for a good start to your adventure with COBI building blocks. This is an aircraft that aviation, military and history enthusiasts should pay special attention to. Build history, brick by brick, with COBI!
