COBI-5820 - SAAB JAS 39 GRIPEN E, model, 480 parts, aged 7 and over

from **31,04 EUR**

Item no.: 358825
 shipping weight: 0.70 kg
 Manufacturer: COBI

Product Description

SAAB JAS 39 Gripen E is the latest development version of the popular Swedish multi-role fighter from the aviation company SAAB. The name of the Gripen aircraft refers to the SAAB crest that houses the neck and emphasises the multi-role nature of the aircraft. The abbreviation JAS was created from words with Swedish meanings: Jakt - hunt, Attack - attack, Spaning - reconnaissance. The Gripen is a powerful multi-role machine that can perform all these tasks. The configuration of the canard and wing in the delta configuration makes it possible to develop high speeds. The "E" version is being developed for the needs of the Swedish and Brazilian air forces. The aircraft was slightly lengthened and its wingspan and weight also increased. The designers announced revolutionary changes to the avionics, a 22 per cent increase in engine power and an extended range of 4075 km. The pilot's cockpit has also been modernised. The JAS-39 Gripen E is a fighter aircraft packed with the latest technologies. A pilot protected by electronic sensors and artificial intelligence systems can concentrate on the mission. With 480 COBI building blocks, you can build a modern JAS 39 GRIPEN E multi-role fighter aircraft in the colours of the Swedish Air Force, issued under licence from the SAAB armaments group. The set has been carefully designed in 1:48 scale. The blocks are covered with high quality prints. The set includes a special pilot's body that can be placed in a hinged cockpit. The whole set is complemented by a block stand with a sign with the name of the set and the national flag of Sweden! Thanks to the intuitive instructions, assembly is easy and will not cause any problems for less advanced builders. The set will fulfil the expectations of aviation, military and block enthusiasts. JAS 39 GRIPEN E in Swedish colour will look great in your collection! Build your passion with COBI!

Details- scale 1:48- age recommendation: from 7 years- number of parts: 480 Technical data- length: 31.5 cm / 12.4?- wingspan: 19.5 cm / 9.1?- height: 10 cm / 3.94? Contents- building kit- instructions- a sign with the name of the set- block display stand Information- manufactured in the EU by a company with over 20 years of tradition- meets the safety standards for children's products- fully compatible with clamp building blocks from other brands- blocks with imprints do not deform and do not fade during play or under the influence of temperature
