from **17,04 EUR**

Item no.: 371716
 shipping weight: 0.40 kg
 Manufacturer: Gaiagames

Product Description

Summsalabim is a co-operative children's game that also challenges adults. As a player, you take on the role of a bumblebee colony and try to collect enough nectar and pollen for you and your offspring. However, you can only do this if you land on the right flower by skilfully balancing a wooden bumblebee. However, only the other players know what the right flower is. They have to guide the collecting bumblebee to the right flower by humming and buzzing. But be careful, Summsalabim also has a trickier version with the powerful magician "Pestizido". He tries to confuse your senses with his poisonous spells. You may lose your bearings and have to balance with your eyes closed, for example. Or the collecting bumblebee is so weakened that it has to be flown by two people. Will you manage to get enough nectar and pollen into your bumblebee nest despite the new challenge?
