from **16,78 EUR**

Item no.: 371718  
 shipping weight: 0.40 kg  
 Manufacturer: Gaiagames

**Product Description**

The aim of Fish 'n' Flips is to rescue marine animals such as dolphins and turtles from fishing nets in a co-operative or competitive manner. This is because many marine animals that end up in fishing nets are by-catch and are often taken from the oceans for free and cannot be used. Fish 'n' Flips offers a constantly new gaming experience for young and old with eight different marine animals and many exciting co-operative rescue missions (available to download) at different levels of difficulty. In the missions, rescuing marine animals is made considerably more difficult by special rubbish cards. Because one thing is clear: rubbish in the oceans is annoying! Fish 'n' Flips inspires you to reduce bycatch and puts your teamwork and combination skills to the test. As you may already know from other Gaiagames games, Fish 'n' Flips is of course produced as sustainably as possible. And how does it work? Fish 'n' Flips is primarily a puzzle game with a variable level of difficulty in which you have to plan well together to discover the best rescue options. The cards are laid out memory-style and you flip (turn over) and swap cards to form swarms, because only together can the sea creatures break out. Use the different abilities of the 8 sea creatures cleverly as a team to prevent the net from becoming full. Playing against each other, you have to be faster and cleverer than your fellow players. Fish 'n' Flips is a game for all animal rights activists, puzzle enthusiasts and anyone who enjoys playing together (cooperatively).

Details- Recommended age: 8 years and up - Number of players: 1-6 people- Playing time: 15-30 minutes Contents- 120 playing cards - 1 set of instructions
