500907629 - Model kit, 1:14 3-axle stake semi-trailer, new body, from 14 years old

from 536,77 EUR

Item no.: 369401
shipping weight: 0.20 kg
Manufacturer: Carson

Product Description

The 3-axle stake trailer from CARSON for transporting long timber or similar long loads is a perfect addition to the TAMIYA tractors. The basis for the trailer is a newly developed torsion-resistant frame (sandwich construction) made of 3 and 1 mm laser-cut sheet steel. Furthermore, a new suspension is included, which can be optionally raised by 8 mm and thus equalises the saddle level to a higher tractor. However, this can also be installed without raising the height, both suspension variants are included in the kit. The installed shock absorber and air suspension dummies function as out-/in-suspension travel limiters. This allows a higher axle articulation and gives a true-to-the-original driving impression. Depending on the load and requirements, the six aluminium stanchion posts on the chassis can be steplessly positioned or also removed. These are loosened or fixed by means of the two recessed grub screws. A solid steel front wall ensures that the load is secured to the front of the tractor unit. Two work lights (500907144) can be optionally mounted on the front wall and also on the rear of the frame; the attachments are already provided. A stable underide guard as well as a spare wheel holder made of steel complete the detailing of the model. **Caution!** Not suitable for children under 3 years. Choking hazard due to small parts.

Details- Recommended age: 14 years and older **Technical details-** Torsion-resistant steel frame in sandwich construction- Frame made of 3 and 1 mm sheet steel laser-cut and CNC-bent- Solid front wall made of steel- Stanchion stanchions (one-piece) milled from solid aluminium- Stanchion bracket can be loosened via two grub screws and repositioned or removed as required.- Detailed trailer axles with air suspension dummies, optionally with height adjustment of + 8mm. Detailed semi-trailer axles with air suspension dummies, optional height adjustment by + 8mm- Solid steel underide guard (left/right)- Spare wheel holder single-armed made of steel with spare wheel- Ball bearing chrome rims with off-road wide tyres- 7-chamber tail lights and number plate holder included- Decoration set, detailed building instructions **Technical data-** Length 980 mm- Width 190 mm - Height 310 mm- Weight: 5.100 g **Optional accessories-** 500907071 1:14 Trailer 7-chamber lighting kit (TAMIYA MFC-03/01 compatible)- 500907144 Rectangular headlights (2) 7.2 Volt (reversing lights and work lights front wall)*- 500907387 1:14 7.2V 7-chamber LED board Uni (2)*- 500907381 1:14 7.2-14V number plate lighting (1)*- 500907155 1:14 Alloy fifth wheel SAF (MFC compatible)- 500907159 1:14 Alloy wheel set wide/round hole (2) running- 500907351 1:14 Alloy wheel set wide/long hole (2) running- 500907218 1:14 E-props (2) Carson Trailer o. Motor- 500907199 Gear Motor Supports Carson Trailer (1)*** Not compatible with TAMIYA MFC-03/01** two motors are needed
