from **30,70 EUR**

Item no.: 371719  
shipping weight: 0.70 kg  
Manufacturer: Gaiagames

### Product Description

The first expansion for the successful game Ecogon in its 2nd edition! Enrich your ecosystem with animals and plants from local ponds, lakes and pools! You can play "Ecogon - Still Waters" on its own or combine it with the basic version of Ecogon. The new still water and bank habitats bring the cool water to the game table - including its creatures. If you want to combine the basic Ecogon game with the water expansion, the bank habitat provides the transition between the previous terrestrial habitats and the still water. This means that the mosquito is also happy about wolf blood and the wolf can satisfy its hunger with a beaver or two. And how does it work? The tried and tested game mechanics are retained and a few features are added, for example there are now also the categories 'water bottom' and 'free-swimming' for the movement of the animals. There are also many new tactical possibilities, especially in combination with the basic version of Ecogon, thanks to the new habitats. If you want to know more about how it works, just watch the rules video for the basic version of Ecogon. Here the author Micha himself explains how to play the game.

Details- Number of players: 1-6 people- Recommended age : 8 years and up- Playing time: 30 -90 minutes- Type: Expansion
