42,06 EUR

Item no.: 374158
shipping weight: 0.50 kg
Manufacturer: ROKR

Product Description

Robotime-ROKR clock with a mechanical mechanism in a beautiful owl shape and battery movement. It has a wind-up pendulum with a wind-up timer. When the time is up, the timer bell sounds! We provide everything you need to build this 3D wooden puzzle kit with mechanical gears. Have fun assembling your own clock!**BATTERY CLOCK:** A real clock powered by a precise quartz battery movement. **BELL TIMER:** A timer is powered by a spring and rings when the time is up (maximum 30 minutes).**REAL PENDULUM:** A spring-driven pendulum with precise lever escapement.**ELEGANT LOOK:** Attractive owl shape and beautiful dial with Roman numerals. As a home decoration, it will be a feast for the eyes.**PERFECT GIFT:** Gift for mechanical enthusiasts or family and friends for any occasion such as birthday, Father's Day or Christmas. The fun of building sets and mechanical engineering brain teasers. If you assemble the product correctly and use the wax inside to properly reduce the friction between the wooden boards, the clock will run for 1-3 hours.**Notes**Due to customs regulations, the wax may not be included in the package. You can use normal candles, crayons, beeswax, etc. as wax.

Details- Assembly time: 4 hours- Difficulty level: 4- Number of parts: 161
Technical data- Material: wood- Length: 26.5 cm- Width: 12.8 cm- Height: 20.6 cm
