**Product Description**

Collect as much rubbish as you can at the deposit beach and bluff your way across the beach in the Schnick-Schnack-Schnuck race. Can you judge your fellow players well to be the first to the rubbish bin? The beach could be so beautiful if there wasn't rubbish everywhere. Fortunately, that can be changed! Pfandstrand is a quick and fun bluffing game for 3-5 people. Your aim is to collect as much rubbish as possible on the beach in a race to the litter bin. It may sound boring at first, but it's a lot of fun! I promise. Quote from a test player: "I haven't had this much fun playing a game for a long time! It's really cool what you can do with just a single postcard" What do you need? Our motto for the postcard games: Anything can be a token! #Conserve resources. In addition to our postcard, you will need: approx. 30 rubbish markers (e.g. pebbles, beans, sticks, etc.) 1 token per player (e.g. coin). And how does it work? The game principle of Pfandstrand is a bit like "Rock, Paper, Scissors". But instead of the familiar symbols, you show numbers from 1 to 4 with your hands on the command "Pfandstrand". The numbers indicate which square you will move to next. But be careful! If you show the same number as another player, you stop! In addition to tactics, a good overview is also required here. Nevertheless, nothing is ever certain at Pfandstrand and even the best plan can be thwarted by your fellow players. Who bluffs best and collects the most rubbish in the end? At Gaiagames, we thought about how we could make board games even more sustainable and came up with the idea of postcard games. All postcard games come without game markers or other accessories. You can simply improvise these from common household items. This means that no extra playing pieces and markers have to be produced. There are enough of them in the world anyway. #Saving resources And of course you can also send the games as postcards.
