from **41,62 EUR**

Item no.: 374145
shipping weight: 0.60 kg
Manufacturer: ROKR

Product Description

This ST003 illuminated globe from Robotime-ROKR is not only a classically sophisticated globe ornament, but also a practical night light with a warm glow. This sophisticated 3D wooden puzzle with globe model is perfect for a fun time with your family or friends. Beautifully designed structures: The 25 mm miniature magnifying glass allows a better view of every detail on the world map. The dimensional engraving in gothic letters gives the entire piece a vintage look. The wave wheel activation structure allows you to have a better feeling when spinning the globe. Unique gift and stylish decoration: A creative and unique practical gift for any DIY enthusiast or any occasion such as Christmas, Father's Day or birthday. Luxurious interior decoration for your room and office. Feel the sense of fulfilment: Have fun with every DIY craft, from building, crafting or even redecorating this 3D wooden puzzle. It requires patience and skill, but it's also fun! Warning: Not suitable for children under 36 months.
