20062495 - Super Rally

from **56,90 EUR**

Item no.: 364143
shipping weight: 0.10 kg
Manufacturer: Carrera

Product Description

Success on his first outing Sébastien Loeb won the Rally Monte Carlo in the Citroën DS3 WRC on his very first outing with a lead of 2 minutes 45 seconds. That could only mean good things. Loeb later recognised the talent of his compatriot Stéphane Lefebvre and supported him from then on. Lefebvre achieved his best result with the race car in Great Britain with eighth place. Mads Østberg switched to the Citroën DS3 WRC in 2014 and then drove for the Citroën Total Abu Dhabi WRT team for two years. Bring the French rally temperament home so that you too can experience the attraction of the dusty and slippery rally races, this Carrera GO!!! track with 4.9 metres and a scale of 1:43 brings the feeling to your home. The two 1:43 scale Citroën DS3 WRC racing cars differ only in their paintwork. The track elements with straights and narrow sections in the special rally design provide further sophisticated track elements on the circuit. By pressing the turbo button on the controller, you can really step on the gas - especially in the loop. In addition to the racetrack, the two slot cars and the two hand controllers, the set also includes a transformer, a lap counter and the accessories for the track.

Details- Age recommendation: from 6 years- Map scale: 1:43- Number of players: 1 to 2 Special features- Expandable Technical data- Track length: 4.9 m- Dimensions: 158 x 68 cm Contents- DS 3 WRC 2012 (Red Bull - Lefebvre) Rally Germany- DS3 WRC 2015 (M.
