from **35,83 EUR**

Item no.: 362929
shipping weight: 0.10 kg
Manufacturer: Carrera

Product Description

Making the ideal start, drifting spectacularly through the bends and always overtaking your opponent in the right lane - you can do all this with a bit of flair and your hand controller. As usual, you can fine-tune the speed of the slot car with the top button. The red button on the front allows you to change lanes on your DIGITAL track. The controller is wired, so you don't need to worry about the charge status or batteries. It always works. The spiral cable gives you enough freedom of movement and does not restrict you in any way during the races.
