from **50,84 EUR**

Item no.: 362938  
shipping weight: 0.90 kg  
Manufacturer: Carrera

### Product Description

Digital features further enhance the racing action on your slot car track. The Driver Display is one of these cool accessories for the Carrera DIGITAL 124 and DIGITAL 132, which not only give the racetrack a visual highlight, but also score points with exciting functions. In conjunction with the Control Unit (30352) and the Pit Lane (30356), the LED display not only shows you the current racing position, but also the fuel level, engine speed and the number of pit stops. With this information, you now have much more room for manoeuvre to incorporate tactical skill into your driving skills and cross the finish line as the winner at the end of the race. The Driver Display is supplied with a 1:24 scale adapter unit and two end pieces.
